

NOMAN HASSAN

DevOps & Cloud Infrastructure Engineer

mr9miofficial@gmail.com · +92-324-545-4100 · Lahore, Pakistan · [linkedin.com/in/noman-hassan-91155822b](#) · [github.com/nomanhassan-coder](#)

PROFESSIONAL SUMMARY

DevOps & Cloud Infrastructure Engineer with hands-on experience architecting production systems on AWS — end-to-end CI/CD pipelines, containerized deployments with Docker and Kubernetes, and DevSecOps practices. Cut deployment effort by ~70% and reduced release cycle time from hours to under 15 minutes during a production internship. Currently deepening skills in advanced Kubernetes patterns, GitOps, and Infrastructure as Code. Open to remote opportunities globally.

TECHNICAL SKILLS

Cloud: AWS (EC2, S3, ECR, ECS, EKS, CloudFront, VPC, IAM, CloudWatch, CloudFormation)

CI/CD & IaC: GitHub Actions, AWS CodePipeline, CloudFormation, GitOps

Containers: Docker, Kubernetes (EKS), Multi-stage Builds

Security: Trivy (CVE Scanning), Container Hardening, Least-Privilege IAM

Other: Bash/Linux, Git/GitHub, Agile, Jira · Learning: Helm, Terraform, Prometheus/Grafana, ArgoCD, CKA

PROFESSIONAL EXPERIENCE

DevOps Engineer Intern — RTC League | Lahore, Pakistan | Nov 2025 – Jan 2026

- ▶ Deployed production AWS infrastructure (EC2, ECS, EKS, S3, CloudFront) supporting multi-environment delivery at 99.9% uptime.
- ▶ Built CI/CD pipelines (GitHub Actions, AWS CodePipeline), cutting deployment effort ~70% and release time to under 15 minutes.
- ▶ Containerized 3+ services with Docker multi-stage builds and integrated Trivy scanning to block critical CVEs pre-production.
- ▶ Authored reusable CloudFormation templates, reducing environment setup time by ~60%.

KEY PROJECTS

- ▶ Automated CI/CD Pipeline (GitHub Actions, CodePipeline, EKS) — zero-touch build-scan-deploy pipeline; cut deployment time 80%, blocked all critical CVEs pre-release.
- ▶ Dockerized Multi-Tier App (ECR, ECS, CloudFront) — multi-stage builds + auto-scaling; reduced image size 55%, achieved sub-100ms global delivery.
- ▶ Container Security Pipeline (Trivy, GitHub Actions) — mandatory CI security gate; caught 15+ critical vulnerabilities, cut time-to-fix 50%.

EDUCATION

B.Sc. in Software Engineering — University of South Asia, Lahore | Nov 2023 – Present

Relevant Coursework: Operating Systems, Computer Networks, Database Systems, Software Architecture, Cloud Computing, Cyber Security

ADDITIONAL

Certifications (In Progress): CKA, AWS Solutions Architect Associate, HashiCorp Terraform · Languages: English (Professional), Urdu (Native)
